

*Early Learning Center*  
*Hours of Operation: 6:30 am - 6:30 pm*

Welcome Parents,

We are pleased that you have chosen Sienna Kids Academy as your “partner” in the care and education of your child. Our primary goals are to prepare your child for a life of learning and to instill in them self-confidence and self-esteem.

Our commitment is to provide your child with hands-on educational experiences within a secure and caring environment that will enhance your child with the very best education and care available in the preschool industry. We promise to create an atmosphere that meets the needs of and promotes the physical, social, and emotional development of the child using creativity and developmentally age appropriate practices. We believe there should be a balance between education and independent play.

Our Curriculum, HighReach Learning (HRL), is designed for twelve months through five years of age. It emphasizes a blend of teacher-facilitated and child-initiated activities. HighReach Learning also reviews state and national standards for early childhood education and takes these into account when planning curriculum. Themes are used to introduce information, and learning takes place as a child explores and manipulates real objects and events.

Parent involvement is important to the success and growth of your child’s education. Parents are welcome to visit at anytime during the operating hours without having to inform Sienna Kids Academy prior to your visit. If you would like to have a conference with one of our teachers or staff members, please call the front office to make an appointment.

Sienna Kids Academy is registered with the Texas Department of Protective and Regulatory services and exceeds the minimum standards set by the state.

We hope that Sienna Kids Academy will soon become you and your child’s home away from home.

Sincerely,

Susan Blanco  
Director, Sienna Kids Academy
